DESIGN REQUIREMENTS

- Design proposal must include technical specs (material and dimensions). Incomplete proposals won't be considered.
- Provide video link to DFS Visual Merchandising team at least 1 MONTH prior to installation.

Fixtures

- This space should be seen as an opportunity for customer engagement and not added merchandise space. While holding stock is allowed, it should not take over the entire footprint and impede the brand's ability to engage with customers.
- All fixtures must be freestanding, stable and meet fire code
- Fixtures must be high quality, no cardboard/ Foamex fixtures will be accepted; if at any point during promotional period fixtures are damaged, the brand is required to repair any damage within 24 hours
- All elements, including fixtures, display props and graphics, should be provided by the brand
- Please build storage into your fixtures to store stock and other promotional items

Set-Up

- Proposals must have a sense of localization for each airport/city
- The use of glorifiers and props is encouraged; if you would like to use glorifiers or props, these must be included in initial rendering for approval. Any glorifiers/visual elements that have not been approved will be discarded upon receipt.
- Lighting is key as space does not feature overhead, dedicated lighting. Proposal must highlight elements that are lit. This is inclusive of backwalls, free standing fixtures, glorifiers, etc.
- All GWPs, sets, featured products must be showcased in a highly visible dedicated space in set up

Wall Graphics

- Wall Graphics material MUST be LOW-TACK vinyl that will not damage the wall surface.
- ANY damage to the wall from removal of the graphic must be repaired by the brand. Repairs must be arranged prior to removal incase damage occurs.
- Recommended repair vendor:
 - Joe Acosta: JACOSTA@IINSTALLINC.COM (650) 454-0479

FLOOR TREATMENT GUIDELINE

Raised Platforms

To be used when power cords are run underneath to power fixtures / element.

- Maximum platform height 100mm
- Edges of platform need to be ramped at least on 1 sides with 1:12 ratio slope for disabled accessibility
- Ramp should be in contrasting color to flooring
- Place fixtures or design elements near the corners to avoid platform becoming a trip hazard.
- All Electrical cords need to be concealed under ramps

FLOOR DECALS

Floor decals applied directly to floor only to be used when no electrical wiring is required.

- Laminated, scuff resistant, certified slip resistant material. Recommend 3M.
- Heavy duty and easy to remove (leave no residue).
- Water resistant, can be scrubbed, cleaned and waxed during regular floor maintenance
- Use darker colors to avoid showing scuff marks.

OPERATIONAL SOP

TERMS & CONDITIONS

Responsibilities

Brand is responsible for communicating the instructions contained within this package to any third-party vendors (i.e. printers, installers, etc.) contracted for the production and/or installation of the promotion space.

After install/dismantle is complete, all crates, packing materials, trash, etc. must be removed from the airport by the vendor. Brand will incur a fine of \$2,000 USD for any trash left on site, either in a DFS store or an airport hallway.

Late Fees

A late fee in the amount of \$1,000 USD will be charged if brand fails to meet any of the following deadlines (max. \$3,000 USD fine):

- Rendering due date specified when Vendor Package is received
- Collateral due 10th of the month prior to start of promotion
- Agreed upon installation date

PROPOSAL & APPROVAL PROCESS

Application Process - We require interested vendors to adhere to the below criteria and application process:

Sketch /Simulation

Kindly submit design and video link to VM, Merchandising team and Assistant General Manager for approval at least **3 months** before the setup.

Criteria

Brands selected must carry a strong and inventive message
Design must be centred around customer interaction
Quality of presentation must be upheld
Firsts, Exclusives and Limited Editions are a priority

Proposal Submission

Rendering of final pop-up with adjacencies
Scale floor plan & elevations with dimensions
Fixture drawings with construction details, dimensions and finishes.
Merchandise Planogram Or Brand VM Guideline

Kindly Submit Your Design To:

- Associate Merchant, SWT, David Lahmani David.Lahmani@dfs.com
- Visual Merchandising Manager, Emma Sanders Emma.Sanders@dfs.com
- Digital Content Manger, NAM Division, Jeff Enlow Blanco jeff.enlow@dfs.com
- Assistant General Manager Sales, Ricky Xu ricky.xu@dfs.com, Sylvia Rivera Sylvia.rivera@dfs.com

WORK PERMIT APPLICATION

Guidelines

- Date of Install: Last of the previous month at 13:00
- Date of Dismantle: Last day of the month at 13:00
- *NOTE: Confirm Install/Dismantle dates with the Promotions team
- Brand to arrange install, dismantle, and escort services for the space
- All tools/implements are to be provided by the brand
- After install/dismantle is completed, all crates, packing materials, trash, etc. must be done by brand
- DFS Recommended Installation Vendor
 - Gaston Arias
 - Email: commercialtitanwraps@gmail.com
 - Phone Number: 510-684-9282
 - **If Commercial Titan Wraps is booked for install, all set up elements to be shipped directly to their place of business**
- DFS has the right to remove brand set up if, upon installation, set up is not compliant with any of the requirements stated in this vendor package. If removed, DFS may charge a removal and storage fee.
- Set up will remain removed until brand complies with guidelines
- **Shipping address:**

SFO	DFS @ SFO Attn: Visual Manager 100 INTERNATIONAL LOOP, CONCOURSE G, GATE 91, COURTYARD 4, SAN FRANCISCO, CA 94128 Tel: (650) 827-4533
